

# MicroFire™ Innovator PI-10/14R Dual Power Tactical HID Flashlight

## THE INNOVATOR

## PI-10/14R

### SPECIFICATIONS

- Body: Aircraft grade aluminum CNC Hard anodized
- Beam: 5°-24° Adjustable
- Bulb type: Ushio SolArc HID 10W/14W
- Bulb Life: 500 hours
- Lumens: 500 / 1000
- Electrical Rating: 11/14 Watts
- Battery type: Rechargeable K1N Lithium-Ion battery pack
- Run Time: 1.5 hrs / 2 hrs
- Water resistance: Splash proof
- Charger: KN-AC Input 100-240v, 60/50Hz.  
KN-DC 12v car charger accessory  
Charging time 4 hours
- Dimensions & Weight:  
Housing Diameter- 43 mm (1.7 inches)  
Bezel Diameter- 76 mm (3 inches)  
Length- 200 mm (7.9 inches)  
Weight- 624 g (1.37 lbs.)

High/Low power selection ring located just below the bezel.

### DESCRIPTION

The MicroFire **Innovator** uses a dual 10/14 wattage US made Ushio America SolArc HID lamp powered by a rechargeable Lithium Ion battery to produce up to 1000 lumens of penetrating white light. Power can be switched while the lamp is on by means of a ring located just below the bezel. Long run times of up to 2 hours in low, and 1.5 hours in high mode make this an excellent choice for search and rescue type operations. The rugged, water and dust-resistant Innovator has a black, hard anodized body with non-slip hand holds. The full spectrum lamp is ideal for use with IR or UV filters. Battery is charged through a flap protected port at the rear of the battery. Accessories include color filters, a belt mounted tactical holster and rubber drop protection sheath. K3N or K5N batteries can be used with the Innovator to significantly increase run times.
