DESCRIPTION

The **Lunetta 2.2CR** features a high output CREE XRE LED in a CNC machined, Type II 6061-T6 aircraft grade aluminum body with a matt black anodized finish. The Lunetta 2.2CR comes complete with two CR123 batteries that will power the flashlight for up to three and one half hours at full power. It has a four position tail switch that activates the flashlight at 100%, and 25% intensities and a strobe mode for emergency signaling and defense. The Lunetta 2.2CR can be gun mounted in various configurations. Accessories include a cordura holster, mouse tail switch, momentary switch and gun mounts.
