

# Lunetta 5.0

## CREE Q5 LED Flashlight

## Lunetta™ 5.0

### DESCRIPTION

The Lunetta 5.0 is a five mode CREE Q5 high brightness LED tactical flashlight. This model features a rear mounted six step tactical button switch that activates the flashlight in (1) full brightness, (2) half brightness, (3) low brightness, (4) strobe and (5) SOS mode for emergency signaling. In high brightness mode, the Lunetta 5.0 produces 225 lumens of brilliant white light. The rear mounted tactical button switch steps through the five modes sequentially. Switch can be clicked fully to turn ON with the next full depression being OFF, or depressed lightly to step through modes without turning the light off. Run time in full brightness mode is up to 3 hours. The Lunetta 5.0 uses two CR-123A batteries (included) and comes with a detachable spring clip and wrist lanyard.
