

NightShift LED Miniatures

NightShift, NightShift II, NightShift III

DESCRIPTION

NightShift LED Miniature Flashlights can be lifesavers. Having a good flashlight ready to use in the car, the purse, on the key chain, or in your tool box can make the difference in unexpected circumstances. Phoebus Tactical miniatures; the original NightShift, the NightShift II and NightShift III are designed for reliability, high brightness and long lamp life. These three models provide a range of cost, output and run times to suite a wide variety of users.

All three miniature flashlights come in attractive gift boxes with batteries included. The NightShift I includes a clip to attach to a key chain. The mighty midget NightShift II features a high output CREE Q2 LED and includes a wrist lanyard. The NightShift III, with a detachable belt clip, features a super bright CREE Q3 LED that can be run in High, Low or Strobe modes. All are CNC machined from aircraft grade aluminum for durability and O-ring sealed for a high degree of water resistance.
